

I am Duncan Howe and I have been a DSA ADI driving instructor for more than 14 years. I have been teaching learner drivers during that time. In 2009 I decided to expand my teaching skills as well as updating my professional development to include B+E (Car & Trailer), D1 (Minibus) and D1+E (Minibus & Trailer). To teach B+E, D1, & D1+E for hire and reward meant that I had to pass the required tests for those categories. Meaning that I am fully up to date with what is required to pass the test for the relevant category.

I have been towing trailers from the day I first passed my driving test. I have towed car trailers, boat trailers, caravans, horsebox trailers and others.

I first qualified as an DSA (Driving Standards Agency) ADI (Approved Driving Instructor) in 1999 to teach:

- B, Car
- B+E, Car and Trailer

I also hold the new Certificate of Professional Competence which allows me to teach:

- D1, Minibus
- D1+E, Minibus and Trailer

I am currently teaching:

- Learner drivers
- Minibus drivers
- Trailer towing

My experience includes instructing for local schools and colleges, individuals, and community buses, day care centres, riding centres, diving clubs to name but a few.
